WYK SORBENTS, LLC IS A WOMAN-OWNED BUSINESS

*WYK Sorbents, LLC has been a small woman-owned business since 2005. Made in America is a given at WYK Sorbents. **All of our sorbents are formulated, processed and packaged in the USA with American labor.***

*Established in 1967, Upright, Inc. introduced the **Original Upright Anti-Slip Safety Sorbent**. It was originally developed to keep the butcher "upright", as many injury accidents in the 1960s were caused by slipping on oily, greasy, slippery floors.*

In October, 2005 Upright, Inc. was purchased by Carol Dunn whose extensive merchandising experience with Standard Brands, Dillards, Sand Point Floral and Revlon is propelling the expansion of WYK Sorbents, LLC. WYK Sorbents now offers over 200 sorbent products and even more with accessories and spill kits.

*WYK Sorbent products offer you **great customer service, fast shipping and risk free buying!** We appreciate your trust in WYK Sorbents and promise to work hard to keep earning that trust.*

—Carol Dunn, Owner, WYK Sorbents, LLC

WYK SAFETY SORBENT®

TRACTION AGENT AND UNIVERSAL SORBENT

WYK SAFETY SORBENT soaks up liquids instantly, leaving a dry, safe anti-slip surface ready for immediate use.

- Instantly leaves surfaces clean and 100% dry
- Concentrated sorbent absorbs and solidifies liquids
- Provides traction on slippery surfaces
- Helps you meet the requirements of OSHA 1910.22, Parts 1, 2 & 3 on walking and working surfaces
- Converts everyday drips, leaks and small spills into a solid "NON HAZARDOUS WASTE"
- Certified free of respirable silica

URNS ALL TYPES OF DISCARDED LIQUID WASTE INTO A NON HAZARDOUS SOLID WASTE

WYK SAFETY SORBENT is a blend of all natural ingredients that safely soak up virtually any liquids from any surface. **WYK SAFETY SORBENT** is 100% pure Amorphous Mineral without any fillers or additives.

WYK SAFETY SORBENT is an inert and inorganic mixture of chemically and physically bound silicates, aluminates with a small amount of ferric oxide, calcium oxide, magnesium oxide, potassium oxide and alkalis and contains no free elements. Its physical shape is flat and thin with generally one bubble juncture per shard allowing for higher capacity and faster capillary action.

APPLICATIONS:

- Road Crews – traffic accident response
- Shipping and receiving facilities
- Manufacturing and machining operations
- Chemical manufacturing and blending
- Maintenance and repair services
- Refuse collection operators
- Aircraft refueling and repair operations
- Cold storage and refrigerated trucking
- Meat and poultry processing
- Food processors

TRIED AND TESTED SINCE 1967 LIST:

WYK SAFETY SORBENT has an excellent history in absorbing many industrial fluids. Some of which are:

- Lubricating Oils
- Grease
- Hydraulic Oils
- Solvents
- Heating Oils
- Transmission Fluids
- Hazardous or reactive liquids
- Cutting oils
- Paint
- Gasoline
- Caustic liquids
- Cleaning solutions
- Gear Lubricants
- Ink
- Paint
- Diesel Fuels
- Kerosene / Jet Fuel
- Acids (except HF hydrofluoric acid)

WYK SAFETY SORBENT®

NON BIODEGRADABLE SOLIDIFYING SORBENT MEETS EPA, RCRA , LANDFILL REQUIREMENTS

PRODUCT OFFERING:

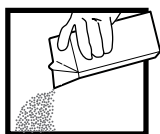

Weights will vary dependent upon the density of natural minerals.

STOCK NO.	DESCRIPTION	SHIPPING WT.	ABSORBS UP TO
500	2 qt. shaker carton, 12/case	27 lbs.	4 gal./case
510	25 lb. plastic weatherproof bag	26 lbs.	3 gal./bag
520	110 lbs. in a 20 gallon reusable drum	125 lbs.	14 gal./drum
530	170 lbs. in a 30 gallon reusable drum	184 lbs.	22 gal./drum
535	40 lbs. in a lined box	42 lbs.	5 gal./box
555	300 lbs. in a 55 gallon reusable drum	315 lbs.	39 gal./drum
580	30 lbs. in a reusable pail	34 lbs.	4.5 gal./pail
585T	25 lbs. in a 5 gallon "tear top" pail	29 lbs.	3 gal./pail
590	2,000 lbs. in a super sack	2,010 lbs.	250 gal./sack

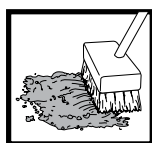

Not for use on hydrofluoric acid or HF compounds.

HOW TO USE AS A TRACTION AGENT:

1. Lightly shake **WYK SAFETY SORBENT** on the floors, ramps, stairs, and walkways to provide traction.
DO NOT OVER APPLY.

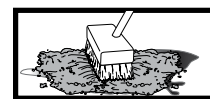

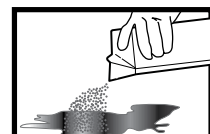

2. As **WYK SAFETY SORBENT** becomes saturated, simply sweep up and re-apply as needed.

HOW TO USE AS A UNIVERSAL SORBENT:

1. Apply **WYK SAFETY SORBENT** on and around spill.
2. Rub **WYK SAFETY SORBENT** in with a broom or shovel.
3. Immediately sweep up saturated sorbent and dispose of in appropriate manner.

If necessary, re-apply **WYK SAFETY SORBENT** and repeat procedure. For best results sorbent product should be immediately removed after use or at the end of a shift and re-applied as needed to provide safe dry floors.

DO NOT LEAVE SORBENT ON FLOOR WHEN SATURATED.

WYK UNIVERSAL SORBENT SOCKS & PILLOWS

RETAINS AND SOLIDIFIES LIQUIDS

Universal Solidifying Sorbent Socks & Pillows: 600 series

Instant action can reach saturation in less than 30 seconds, solidification (does not release liquids) meeting solid hazardous waste rules.

PRODUCT OFFERING:

STOCK NO.	DESCRIPTION	SHIPPING WT.	ABSORBS UP TO
600	4 in. x 4 ft. socks, 15/case	11 lbs.	10 gal./case
608	4 in. x 8 ft. socks, 6/case	11 lbs.	13 gal./case
610	4 in. x 10 ft. socks, 6/case	11 lbs.	10 gal./case

WYK SUPER SORBENT®

LIQUID & OIL SORBENT AND TRACTION AGENT

WYK SUPER SORBENT instantly soaks up liquids, which reduces clean up time and limits liability exposure.

- Minimizes slip/fall injuries
- Eliminates fire hazards
- Absorbs and solidifies liquids
- Non biodegradable and inert
- Certified free of respirable silica

LIGHTER WEIGHT - MORE ABSORBENT

WYK SUPER SORBENT and **WYK SAFETY SORBENT** are the same unique blend of inert minerals. The difference is in the way these minerals are processed making **WYK SUPER SORBENT** lighter weight and more absorbent.

Ergonomically engineered to save!

Buy, handle, store, dispose of less sorbent to do the complete job

URNS ALL TYPES OF DISCARDED LIQUID WASTE INTO A NON HAZARDOUS SOLID WASTE

Helps you meet the requirements of OSHA 1910.22, Parts 1,2 & 3 on walking and working surfaces rule.

1910.22 General Requirements.

- Surface Conditions - Employer must ensure:
 1. All places of employment, passageways, storerooms, service rooms, and walking working surfaces are kept in a clean, orderly and sanitary condition
 2. The floor of each workroom is maintained in a clean and to extent feasible, in a dry condition
 3. Walking-working surfaces are maintained free of hazards such as sharp or protruding objects loose boards, corrosion, leaks, spills, snow and ice.

DO NOT LEAVE SORBENT ON FLOOR WHEN SATURATED.

WYK MINI SPILL KITS

These small “mini” Spill Cleanup Kits really pack a punch! They allow you to place one in many different places where small drips and spills could occur.

This makes it incredibly easy to keep the floor clean, dry and safe for both employees and visitors.

These shaker cartons are very efficient, limiting the amount of sorbent used producing less waste. Unlike the clay product, **WYK Super Sorbent** works instantly, requiring little time for the cleanup. Because it is so easy to do, people love to use it! They now take pride in having a clean, safe and dry work floor area!

This same scenario holds true whether it's an auto service garage, machine shop, printing presses or assembly lines. Each area can be efficiently and safely maintained with the **Mini Spill Kit Plan!**

WYK ACIDS SAFE®

ACID NEUTRALIZING, INDICATING AND SOLIDIFYING SORBENT

*A fast, safe and efficient method to neutralize and absorb acid spills, **ACIDS SAFE** contains an indicator that provides a visible color change to indicate complete neutralization.*

COLOR INDICATING SORBENT

Color indication initially indicates the strength (PH) of the acid: Gold indicates a strong acid; Yellow indicates a mild acid. When mixture turns purple a second time it has been neutralized to a safe PH range.

AN3024
shaker cartons

AN3030
5 gallon pail

WYK ACIDS SAFE®

ACID NEUTRALIZING, INDICATING AND SOLIDIFYING SORBENT

PRODUCT OFFERING:

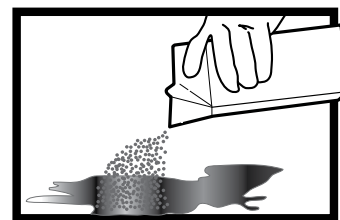

Weights will vary dependent upon the density of natural minerals.

STOCK NO.	DESCRIPTION	SHIPPING WT.	ABSORBS UP TO
AN3005	2 qt. shaker carton, 6/case	14 lbs.	1 gal./case
AN3024	2 qt. shaker carton, 12/case	27 lbs.	2 gal./case
AN3025	25 lbs. bag	26 lbs.	2 gal./box
AN3030	25 lbs. in a 5 gallon pail	28 lbs.	2.5 gal./pail
AN3035	35 lbs. in a 6.5 gallon pail	38 lbs.	4 gal./pail
AN3080	80 lbs. in a 20 gallon reusable drum	90 lbs.	8 gal./drum
AN3220	220 lbs. in a 55 gallon reusable drum	235 lbs.	22 gal./drum

Not for use on hydrofluoric acid or HF compounds.

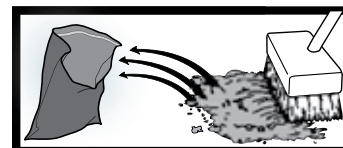

HOW TO USE:

1. Put on appropriate personal protective equipment (PPE) before attempting spill cleanup.
2. Apply **ACIDS SAFE** to spill from the perimeter inward. Foaming gases and heat will be generated during the neutralization process. Color indication initially indicates the strength (PH) of the acid: Gold indicates a strong acid; Yellow indicates a mild acid. When mixture turns purple a second time it has been neutralized to a safe PH range. Use sufficient neutralizer to eliminate the presence of any free liquids and turn the mixture to a uniform purple color.

(SEE COLOR BARS ON PREVIOUS PAGE.)

3. Allow mixture to cool before picking it up.
4. Pick up neutralized mixture and place into a leak proof container.
5. Label and dispose of in accordance with local, state and federal regulations.

WYK ACIDSAFE® SOCKS AND PILLOWS

ACID NEUTRALIZING, INDICATING AND SOLIDIFYING SOCKS AND PILLOWS

*NEUTRALIZES, INDICATES AND SOLIDIFIES
SAFE PH RANGE IN ONE EASY STEP!*

• HELPS YOU COMPLY WITH:

- **OSHA Regulations 1926.441** – Battery Room and Charging Areas
- **OSHA Regulations 1910.178** – Changing and Charging Batteries
- **OSHA Regulations 29 CFR 1910.120** – Availability of salvage drums and absorbents

- **ACIDSAFE** sorbent socks and pillows instantly pull the acid drips into a matrix that provides a buffered neutralization and color indication as it's working.

When sock or pillow is saturated simply pick up and replace with a new **ACIDSAFE** sock or pillow. No mess, professional looking maintenance and protection for your battery recharge drip pans.

- "Quilted" for improved strength and even neutralizer distribution. This improves the life of the sock or pillow and assures efficient usage of the neutralizer.
- **DRIES THE SPILL! ACIDSAFE** completely dries up the acid and surface below allowing for easy and safe pick up after neutralization. This product completely eliminates the sticky mess associated with acid neutralization with sodium carbonate neutralizers. It leaves a dry, safe floor when your finished!

AN612 pillows

AN600 socks

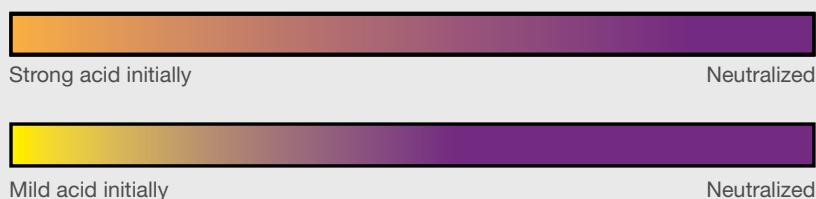

WYK ACIDSAFE® SOCKS AND PILLOWS

ACID NEUTRALIZING, INDICATING AND SOLIDIFYING SOCKS AND PILLOWS

COLOR INDICATING SOCKS AND PILLOWS

Color indication initially indicates the strength (PH) of the acid: Gold indicates a strong acid; Yellow indicates a mild acid.

When mixture turns purple a second time it has been neutralized to a safe PH range.

PRODUCT OFFERING:

STOCK NO.	DESCRIPTION	SHIPPING WT.	ABSORBS UP TO
AN600	4 in. x 48 in. x 1 in. neutralizing socks, 8/case	15 lbs.	7 gal./case
AN612	12 in. x 12 in. neutralizing pillows, 8/case	15 lbs.	7 gal./case

Not for use on hydrofluoric acid or HF compounds.

HOW TO USE:

1. Place under battery charging stands to catch, neutralize & solidify the acids protecting your valuable drip pans from corrosion.
2. May be use to cleanup acids spills and drips anywhere they may occur.
3. Works instantly upon contact with the most acids except hydrofluoric acid (hf).

WYK ACIDSAFE® BATTERY WASH

ACID NEUTRALIZING AND INDICATING DEGREASER

COLOR INDICATING DEGREASER

Color indication initially indicates the strength (PH) of the acid: Gold indicates a strong acid; Yellow indicates a mild acid.

When mixture turns purple a second time it has been neutralized to a safe PH range.

PRODUCT OFFERING:

STOCK NO.	DESCRIPTION	SHIPPING WT.
AN3300	32 oz. pump spray bottles (1 qt.), 6/case	15.5 lbs.
AN3301	32 oz. pump spray bottle (1 qt.) in shipping box, 1/case	3 lbs.
AN3303	1 gallon jug in shipping box, 1/case	8.5 lbs.
AN3304	1 gallon jugs in shipping box, 4/case	35 lbs.
AN3305	5 gallon cube with faucet screw cap in shipping box, 1/case	44 lbs.
AN3355	55 gallon drum, 1/case	450 lbs.

HOW TO USE:

1. Always wear appropriate Personal Protective Equipment (PPE) before cleaning batteries and equipment.
2. Spray **ACIDSAFE** directly on soiled equipment and batteries. **ACIDSAFE** is a ready-to-use solution with no mixing required. Allow a few minutes for the **ACIDSAFE** to go to work.
3. Use appropriate size brush or scraper to scrub and clean off the batteries and equipment. Use more **ACIDSAFE** as needed to completely clean off any corrosion, grease or grime.
4. **ACIDSAFE** (purple liquid) will turn to a yellow/orange color when it comes in contact with acids or acidic corrosion. Neutralization is complete when this liquid turns back to purple. Spray additional **ACIDSAFE** on the battery or equipment to insure a uniform purple color is reached.
(SEE COLOR BARS ON ABOVE.)
5. Dispose of used materials in accordance with local, State and Federal regulations.

WYK FRESH

ODOR NEUTRALIZING SORBENT

WYK FRESH is an odor control absorbent made from vegetable and cellulose fiber impregnated with odor-controlling fragrances. Highly absorbent fibers instantly soak up vomit and other odorous liquids.

WYK FRESH:

- **Neutralizes odors** on contact and leaves a pleasant **cherry** or **wintergreen** scent.
- **Easy to use** and comes in a convenient resealable shaker jar, pail or box container.
- **Safe to use** and will not stain, smear, or harm floors, carpeting or upholstery.
- **Excellent at absorbing** vomit and odorous liquids quickly and effectively.
- **Deodorizing sorbent** for use in the bottom of garbage cans, dumpsters, receptacles for sanitary napkins and surgical dressings.
- **Air freshening sweeping compound**, attracts and holds onto dust when swept across the floor.
- **May be used to soak up non-aggressive liquid spills** overcoming any odors in the process. It will absorb up to 8 times its own weight in liquids!

2601 shaker jars

2602W 5.3 gallon pail

2603C corrugated box with liner

WYK FRESH

ODOR NEUTRALIZING SORBENT

PRODUCT OFFERING:

Weights will vary dependent upon the density of natural minerals.

STOCK NO.	DESCRIPTION	SHIPPING WT.	ABSORBS UP TO
2601C	10 oz. shaker jars – cherry scented, 12/case	9.5 lbs.	5 gal./case
2601W	10 oz. shaker jars – wintergreen scented, 12/case	9.5 lbs.	5 gal./case
2602C	5.3 gallon pail – cherry scented, 1 pail	22 lbs.	16 gal./pail
2602W	5.3 gallon pail – wintergreen scented, 1 pail	22 lbs.	16 gal./pail
2603C	Corrugated box with inside liner – cherry scented, 1 box	32 lbs.	26 gal./box
2603W	Corrugated box with inside liner – wintergreen scented, 1 box	32 lbs.	26 gal./box

Not for use on hydrofluoric acid or HF compounds.

HOW TO USE:

Circle to contain and completely cover the odorous material with **WYK FRESH**. Liquids and semi-solid materials will be instantly absorbed and odors will be immediately reduced. Using a broom or scraper push the **WYK FRESH** inward toward the center of the spill. Work around as need to soak up the material. Sweep up and dispose of in a sealed container or any trash receptacle.

WARNING: Not for use on aggressive, reactive or flammable liquids. May irritate eyes. Store container tightly closed. If skin irritation occurs, get medical advice.

EMERGENCY OVERVIEW:

GHS Classification: Eye Irritation: 2B Eye irritation possible

Target organ Systemic Toxicity: 3 Transient Respiratory Irritation Possible

Signal Word: WARNING

Hazard Statements: N/A

Precautionary Statements: IF SKIN IRRITATION OCCURS, GET MEDICAL ADVICE. IF IN EYES, RINSE CAUTIOUSLY WITH WATER FOR SEVERAL MINUTES – REMOVE CONTACT LENSES. IF EYE IRRITATION PERSISTS, GET MEDICAL ADVICE. AVOID BREATHING DUST. IF INHALED, REMOVE TO FRESH AIR AND KEEP AT REST IN A POSITION COMFORTABLE FOR BREATHING. STORE CONTAINER TIGHTLY CLOSED

Sweep up and dispose of in accordance with local, state and federal regulation.

KEEP OUT OF REACH OF CHILDREN • PLEASE SEE SAFETY DATA SHEET.

WYK FLUIDLOC™

FLUID ENCAPSULATING SORBENT FOR BLOOD AND WATER-BASED FLUIDS

861-1 shaker bottle

BODILY FLUID CLEANUP MADE SAFE AND SIMPLE!

- This uniquely formulated solidifier has the power to solidify while eliminating malodors. Super concentrated - **absorbs up to 150 times it's own weight in aqueous based fluids.**
- The **FLUIDLOC** sorbent makes cleanup fast and safe and easy.
- **FLUIDLOC** is non-reactive, non-flammable, non-toxic, inhibits vaporization and associated malodors and is completely safe to use.

861 12 shaker bottles

834 20 gallon drum

833 6.5 gallon rectangular flip top pail

860 flip top dispenser jar

WYK FLUIDLOC™

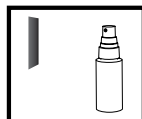

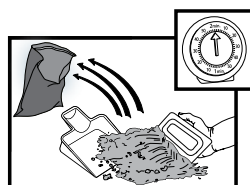

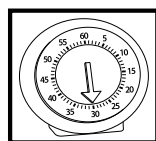

FLUID ENCAPSULATING SORBENT FOR BLOOD AND WATER-BASED FLUIDS

PRODUCT OFFERING:

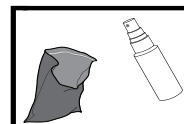

STOCK NO.	DESCRIPTION	SHIPPING WT.	ABSORBS UP TO
860-1	1 flip top dispenser jar, 4 oz.	1 lbs.	4.5 gal./jar
860	Flip top dispenser jars, 24/case	8 lbs.	112 gal./case
861-1	1 shaker bottle, 12 oz.	1 lbs.	50 gal./bottle
861	Shaker bottles, 12/case	14 lbs.	576 gal./case
833	6.5 gallon rectangular flip top pail (white)	44 lbs.	640 gal./pail
834	20 gallon drum (yellow)	175 lbs.	2,720 gal./drum

HOW TO USE:

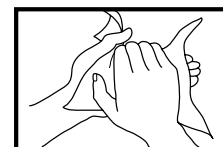

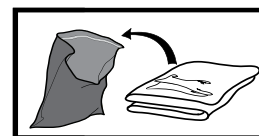

1. Open spill kit, put on PPE.
2. Remove **FLUIDLOC** shaker bottle and pour around contaminated area. Keep pouring until contaminated area and fixtures are covered.
3. Wait 30 seconds, apply additional **FLUIDLOC** to any areas that look "wet".
4. After two minutes, removed gelled **FLUIDLOC** and any other contaminated debris and place into the red biohazard bag provided.
5. Use the disinfectant spray and cover cleanup area and fixtures completely wetting the surfaces. Leave on the

surface a minimum of one minute or allow to dry completely. Also spray inside the biohazard bag and on your PPE that may have become contaminated. Disinfectant wipes may also be used to clean and disinfect surfaces (not for use on hands or skin).

6. Carefully remove PPE being careful not to touch contaminated PPE to your skin. Place used PPE into red biohazard bag. Pour any remaining **FLUIDLOC** into the red biohazard bag and spray disinfectant into the bag again and seal.
7. Clean hands thoroughly with soap and water or use supplied anti-bacterial hand cleaner wipe.

CUSTOMIZED TRAILER UNITS

Customize a trailer for your own needs.

You specify the products and quantities and we will build it for you.

- If you don't know what you need, let us know the application and we will work with you to design a trailer unit that will fit your specific needs

WYK SPILL KITS

CUSTOM KITS

CREATE A CUSTOMIZE KIT:

CHOOSING JUST WHAT YOU NEED FOR YOUR SPECIFIC APPLICATION!

We have a WYK Spill Kit expert that can build a customized spill kit based on the information provided below. A detailed kit report will show you what your kit will look like, weight, capacity, contents and cost.

Four easy steps to build a customized spill kit. Please tell about your spill needs:

1

Type of liquids for cleanup

What types of liquids are present that could potentially spill?

- Oils
- Solvents
- Flammable liquids
- Chemicals
- Cleaning compounds
- Vegetable oils
- Water

2

Capacity of cleanup

How much capacity in gallons do you need your kit to cleanup?

How much could potentially be spilled of each liquid that is in the area.?

3

Personal Protection Equipment (PPE)

Boots, gloves, goggles, face shields, coveralls, aprons and more are available. All PPE ordered with spill kits is placed on top of the sorbents inside the spill kit. ***(Please see pages 24-25 for all available PPE)***

4

Accessories

Spill kit accessories are available like light sticks, leak putty and more. Please list any items you wish included in the kit. ***(Please see pages 51-53 for all available accessories)***

Submit this information to us and we will provide you a detailed kit report along with a quote within 24 hours. Please call us at 1-800-248-7007 or e-mail us at wyk@wysorbents.com.
